

产品介绍 Product Introduction:

Microwave pork crackle Paper Bag 微波猪皮纸袋

Our microwave pork crackle bags adopt two-layer composite structure with food-grade KIT11 greaseproof kraft paper on both inner and outer layers, effectively blocking oil seepage during high-temperature heating.

The paper bag is heat-resistant and oil-proof, allowing the pork skin to heat evenly and resulting in a crispy texture.

All printing uses non-toxic water-based ink, and the top & bottom seals apply DuPont food-safe water-based heat-seal adhesive. All raw materials meet FDA and EU food contact standards, safe and eco-friendly. Custom multilingual printing is available.

外层原纸为高级食品级防油牛皮纸,防油等级大于等于KIT11
The outer layer of paper is advanced food-grade greaseproof kraft paper (≥KIT11).

内层原纸高级食品级防油牛皮纸,防油等级大于等于KIT11。
The inner layer of paper is advanced food-grade greaseproof kraft paper (≥KIT11).

采用食品级水基型油墨印刷,安全环保。
It is printed by food-grade water-based ink .Safe & Eco-friendly

底部及顶部封口均采用美国杜邦公司生产的可接触食品的水性热熔胶印制。高温密封牢固不开裂
The bottom and top seal are the food-grade water-based heat-seal adhesive produced by DuPont.firm sealing under high temperature.
